Potential-distribution modules; system accessory

A wide range of accessory modules is available
for individual requirements of machine and plant
engineering. Various potential distribution modules
are available for the supply of sensors with 2- to 4-wire
connection technology directly from the remote I/O
system. These offer 16 "PUSH IN" potential points and
supply your application with any auxiliary potential
available. An empty module, where the system bus and
voltage supply are looped through, allows you to plan
expansion slots in a system and to start these up without
any interruptions if required.

General ordering data

Version	Connecting plug
Order No.	1469340000
Type	UR20-PG0.35
GTIN (EAN)	4050118275339
Qty.	8 pc(s).

Creation date March 24, 2021 12:25:21 AM CET
